600 highly
qualified
employees

More than
1.8 billion packages
per year

Exports 46%,
countrywide 54%

Over 300 million
leaflets annually

Dedicated
customer service

Over 30 years of experience
in manufacturing solid
cardboard packaging for the
food sector

Our advantages

HIGH QUALITY

- Integrated quality management system policy
- Top-level quality control procedures
- Compliance with the requirements of the most widely recognised quality standards in the industry
- Full security IT systems

FLEXIBILITY AND SHORT IMPLEMENTATION PERIODS

- An organisation strategically aligned for the rapid execution of incoming orders
- Available production capacity to deal quickly with urgent orders
- Dedicated service focused on rapid response

COMPETITIVE PRICES

- Rational pricing model implemented
- In line with market trends
- Comprehensive solutions, tailored to customer needs

A TAILORED APPROACH AND EFFECTIVE IMPLEMENTATION

- Comprehensive product portfolio
- Adaptive contracting and production process
- In-house R&D department

SUSTAINABLE DEVELOPMENT AND RESPONSIBILITY

- Business continuity plan in place to enable factories to perform back-up functions in the event of an emergency
- Supply of raw materials secured through a multi-resource strategy
- EcoVadis silver medal

Experience

- We have many years of experience in manufacturing packaging for the food, pharmaceutical, personal care, cosmetic and technical products markets
- We create both simple packaging, as well as very complex and highly processed designs
- We support our customers throughout the process of packaging creation, from design and graphics, all the way to testing and production
- Our machinery allows us to carry out both small and large production runs, taking account of the specificity and requirements concerning the customer's packaging process
- We help our customers to optimise the time to market

Cross-industry confidence

Thanks to our many years of experience, we are a trusted business partner for multinational companies from many industry sectors in Europe. **The packaging produced by Akomex effectively helps to build the image and establish the market position of brands.**

Certificates

We implemented and apply a quality management system based on the following standards: **ISO 9001, ISO 15378, ISO 14001 and - as one of very few in the industry - BRC "AA"**. This is a certificate ensuring the safety of food products that require application of low-migration paints and varnishes.

Confirmed quality

- We operate in accordance with the Integrated Quality Management System Policy
- We are continuously monitoring the regulations for the various sectors
- Our modern machinery is based on technologies offered by leading companies: **Bobst, Heidelberg, and Man Roland**

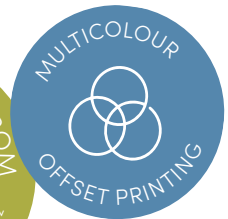

Our solutions

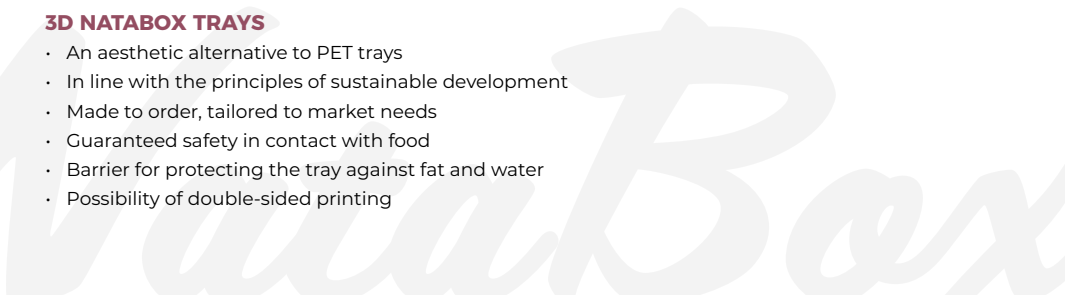

SOLID CARDBOARD PACKAGING

- Packaging made of solid cardboard: bleached, cellulose, recycled and kraft
- Multi-colour offset printing, water and UV varnish (also low-migration)
- Designs for automatic and manual packaging lines
- Up to 7 colours + 2 varnishes in one run
- Grammage range from 180 to 700 g/m²

3D NATABOX TRAYS

- An aesthetic alternative to PET trays
- In line with the principles of sustainable development
- Made to order, tailored to market needs
- Guaranteed safety in contact with food
- Barrier for protecting the tray against fat and water
- Possibility of double-sided printing

WRAPS AND BANDS

- A system consisting of an unprinted film and a paper band
- This eco-friendly solution is most often used in yogurt and cottage cheese packaging
- Reduction of plastic usage while maintaining adequate rigidity of packaging
- Excellent graphics quality is guaranteed by offset printing technology

LABELS

- Labels produced on paper or foil
- Made on a silicone or foil base
- Flexo technology
- Lines for printing and scrolling
- Scrollers with electronic systems for 100% control of in-line printing

SHEETS AND LAMINATED TRAYS

- For direct and indirect contact with dry and fatty foods
- Suitable for freezing
- Cardboard for recycling

FLYERS

- Single colour or multi-colour, double side offset print technology
- Cross-creasing of folded leaflets
- Banding, pressing and foil wrapping of packs

Exceptional products require an exceptional presentation

We offer a variety of enhancement methods. All to make your product effectively stand out on the store shelves.

Braille embossing

Holograms

Embossing & debossing

Varnishing

Laminating

Hot foil stamping

Sustainable development is our priority

This is confirmed by our **ISO 14001:2015** and **FSC** certifications. Our Quality Book includes a Standards Policy with environmental and green goals:

Environmental protection

Recycling

Waste segregation

Continuous raising of awareness and employee competences concerning environmental aspects

Akomex Group has been awarded a silver medal by EcoVadis, a leading global rating agency that evaluates companies' activities and practices from the perspective of corporate social responsibility, including commitment to environmental protection.

Protect your product against counterfeiting

We also specialise in advanced methods of securing packaging against counterfeiting.

Dual-effect varnish combination

Holograms

Microprinting

Coin reactive ink

Printing with fluorescent inks
